

RingBuffer

```
classDiagram
    class RingBuffer
    class GenericRingBuffer
    class SoundRingBuffer
    class TransformRingBuffer
    GenericRingBuffer --|> RingBuffer
    SoundRingBuffer --|> RingBuffer
    TransformRingBuffer --|> RingBuffer
```

A UML class diagram illustrating inheritance. At the top is a box labeled 'RingBuffer'. Below it are three boxes: 'GenericRingBuffer' on the left, 'SoundRingBuffer' in the center, and 'TransformRingBuffer' on the right. A horizontal line connects the three bottom boxes, and a vertical arrow points from the center of this line up to the 'RingBuffer' box, indicating that all three subclasses inherit from the 'RingBuffer' superclass.
